

The Game Catchers

Lawn Bowling

Number of players: 3 or more

Material required: ball, 6 jars, bowling pins or plastic bottles

How to play:

Place the objects (bowling pins) standing up on the ground in the shape of a triangle pointing towards the player whose turn it is to throw.

The player rolls the ball along the ground and tries to knock over as many of the objects as possible (each player can throw three times).

The player who knocks over the most objects wins.

It's also possible to play in teams of three, with one throw per player.
